

Harnessing the Power of AI to Transform Education

Artificial Intelligence (AI) technology is poised to become vital to the education sector. Intelligent machines are playing a major role in delivering customized relevant knowledge to learners, where and when needed.

At Hitachi Systems Micro Clinic we believe that the process of teaching and learning is changing dramatically in the digital age and we are passionately working to achieve this transformation along with Educational Institutes. Using our proprietary AI platform, 'Humonica', we provide solutions to engage students better and open new business avenues for Educational Institutes.
