The partnership between TSBS and SBI that began 11 years ago, is founded on shared values. It is built on the bank of trust for a long-term relationship. SBI has been helping TBS build its customer relationship in the last few years through its corporate relationships. We have been working together to make our products and services attractive and profitable, and we have always invested in research and development. SBI has been a great partner at every step of this journey. It has been its constant support in making the necessary changes and improvements in the banking technology environment.

CEO SPEAK

**NUMERO UNO IN BANKING TECHNOLOGY**

The bank that has a history of innovation in the banking industry, with a portfolio of successful banking solutions and a track record of creating more customer-centric digital journeys for its customers. We are proud to be the first public-sector bank in the country to publish the CFO Report, which outlines the financial results for the quarter. When the bank announced its first quarter results, it reported a strong performance and continued its focus on digital banking. The bank has also been successful in its digital initiatives, including the launch of SBI Digital Bank, which has been enabling millions of transactions per day.

It gives SBI a great advantage to partner with TSBS in order to enable a new era of digital banking. We are looking forward to the future with great expectations. We are committed to providing the best possible services to our customers and are looking forward to the upcoming opportunities that arise from this partnership.

**Dell Technologies India**

The current technology landscape is dynamic and requires every industry to adapt to emerging technologies and trends. One sector that has been witnessing a significant change in its digital footprint is the Indian banking sector and the Indian banking ecosystem. Dell Technologies India is providing a complete portfolio of solutions for the Indian banking sector. These solutions are evolving at a rapid pace and are being adopted by banks to improve their customer experience. Dell Technologies is supporting SBI, a leading bank in India, by providing innovative and scalable solutions to help them achieve their digital transformation goals.

Dell Technologies is helping SBI to build a secure, reliable, and robust infrastructure for its IT operations. Dell Technologies is providing SBI with a comprehensive portfolio of infrastructure solutions that are designed to meet the demanding requirements of the banking industry. These solutions include servers, storage, networking, and security solutions that are designed to provide a high level of availability, reliability, and scalability. Dell Technologies is also providing SBI with a range of management and monitoring solutions that are designed to help SBI manage its IT infrastructure effectively.

The partnership between Dell Technologies India and SBI is a testament to the value of collaboration in the banking industry. Dell Technologies India is committed to providing innovative and scalable solutions to help SBI achieve its digital transformation goals. We are excited to see the impact that these solutions will have on the Indian banking sector and the customer experience.

**Teamwork is the ability to work together toward a common vision. The ability to direct individual accomplishments toward organizational objectives. The fuel that allows common people to attain uncommon results.**

- Andrew Carnegie
