The most exciting aspect of Tech Mahindra’s 17 years relationship with State Bank of India, the oldest and largest bank in India, is its commitment to innovation and maintaining technology solutions, which are capable of managing unprecedented scale in terms of volumes of data assets. With this, SBI has been able to deliver a differentiated customer experience across new business lines.

The contrastable knowledge about the bank that we have gained over the years, coupled with our Business 4.0 framework and the associated solutions provided by us, has enabled SBI to leverage cloud computing in a way that includes its digital readiness and digital maturity. We have consistently enabled SBI to deliver a differentiated customer experience across new business lines.

TCS is delighted to be associated with SBI, and as the bank embarks on its digital journey, we are excited to be part of an exciting journey filled with energy, innovation and a passion to excel.
